INDUSTRIAL FIRE DRILL COMPETITION
ORGANISED BY DIRECTORATE OF MAHARASHTRA FIRE SERVICES

RULES, PENALTIES AND TROPHIES/SHIELDS :

In the industrial Fire Drill Competition the following Seven Events are included. Any Industry can participate in this Competition. The Officers, Staff workers, administrative staff or any other personnel working in the Industry, Administrative Establishment, Hotel or any other occupancy can participate in this competition.

The Events of the Competition are considered giving due consideration to the Fire Fighting Equipment to be used or handled by the employee/member concerned, in case of Fire Emergency.

The following events are included in the Competition:

EVENTS :

- 1. One man Fire Extinguisher Drill for Male Workers and Security Staff.**
- 2. One man Fire Extinguisher Drill for Team Leader / In-charge.**
- 3. One man Fire Extinguisher for Female Workers & staff**
- 4. Kitchen Fire Drill for Female.**
- 5. One man Hose Reel Drill for male workers and staff.**
- 6. Two man Hydrant Drill for Team Leader / In-charge.**
- 7. Four men two part Hydrant Drill with Team Leader / In-charge.**

NOTE :

1. For Over all "Best Performance of the Team", Events No. 1, 2, 5, 6 & 7 shall be taken into consideration for next 3 Yrs (2018 to 2020) and markings / grading shall be done as given in Annexure I of this rules. (the three year gap is hereby given keeping in mind that many companies female representative does not participate in Event No. 03 & 04 but then these needs to be encouraged)

2. For “Best In-charge in Industrial Drill Competition” Event No. 02 & 06 shall be taken into consideration and markings / grading shall be done as given in Annexure I of this rules
3. For “Best Male Performer in Industrial Drill Competition “ Event No. 01, 05 & 07 shall be taken into consideration and markings / grading shall be done as given in Annexure I of this rules
4. For “Best Female Performer in Industrial Drill Competition” Event No. 03 & 04 shall be taken into consideration and markings / grading shall be done as given in Annexure I of this rules.

Prepared by : Mr.B.B.Surve, Dy.Chief Fire Officer, Mumbai Fire Brigade.

Mr.Ajit Gadade, Divisional Fire Officer, Mumbai Fire Brigade.

Revised by: Shri. K R Hatyal, Sr. Instructor, Maharashtra Fire Service in 2017

=====

EVENT NO.1 : ONE MAN FIRE EXTINGUISHER DRILL FOR MALE WORKERS AND SECURITY STAFF.

This event will be contested by the one participant of each team. The individual timing of each participant will be recorded and individual clocking minimum timing will be declared winner of the event. The next best two individuals will be declared Second and Third position.

Uniform & Equipment

- 1 x 4 Kgs. of ABC Type Stored Pressure-Squeeze Grip type (Ceasefire or other such make) extinguisher as per IS 15683
- Knee length Gum boots or Safety Shoes, Helmet with chin strop and Boiler Suits or Company's Safety Uniform and web belt (Canvas or Leather)

DRILL

A man on starting line runs 25 ft. to the equipment line. He collects the 4 kgs. extinguisher and runs 100 ft. and put out the petrol fire in the tray. He than runs with the extinguisher 15 ft. to the finishing line. The judge will blow the whistle on completion of drill. To all men taking part – ½ liter petrol in the tray will have a 10 seconds pre burn period before starter whistle is blown,

The event will be done individually by all the participates from the different Industries.

Judge's sides : There will be two sides of the drill event equipment side (rear side) and fire side (front side) for the judges. One Judge the performance as each side separately. There will be one more judge to blow the whistle, record the total timing of the event and will act as supreme referee.

The whistle will be blown twice, starting and finishing.

The decision of the referee will be final.

NOTE :- Organizer of the drill events will not be responsible for any injury to the participant or damage to the equipment whatsoever.

Penalties

Seconds

<u>A. General</u>	
01. Falling of helmet or any other uniform article during the drill	02 per article
02. Failing to replace helmet or any other uniform article, before reaching the finishing line/before final whistle.	02 per article
03. Falling off extinguisher or any extinguisher parts (except for safety pin)	05 per parts

- (B) **Equipment side**
- | | | |
|-----|--|---|
| 01. | Starting before the whistle | 5 |
| 02. | Operating extinguisher before crossing the operation line. | 5 |
| 03. | Rough/improper handling of extinguisher. | 2 |

EVENT NO.6 : TWO MAN HYDRANT DRILL FOR TEAM LEADER

This event consist of two men, one Team Leader / In-charge who will perform the Drill and other man will assist him just to open and close the water supply. This event will be individually contested by the Team Leader / In-charge and the Team Leader / In-charge clocking best minimum timing will be declared winner, where as next two best performances will be given Second and Third position.

Uniform & Equipment

1. Length of performance hose (1 X 50 ft.)
2. Branch with 5/8" Aluminium Nozzle

Knee length Gum boots or Safety Shoes, Helmet with chin strop and Boiler Suits or Company's Safety Uniform and web belt (Canvas or Leather)

DRILL :

Equipment to the placed on hydrant line. Man to stand at ease on starting line. At starting whistle, runs to the hydrant line, collects a perma line hose and nozzle; fix 50' hose to the hydrant head, give water on signal, insert the branch and hit the target from the box provided with the assistance of another person placed at the hydrant valve only under instruction form the competitor. The other person will be standing on the starting line facing the opposite direction. He will run to the hydrant post, only after receiving the signal from competitor. The permaline hose should be rolled back and kept on the finishing line i.e. the line from which the hose was picking up. Rolling could be done in a straight line. The hose could be rolled up using the lugs but keeping the coiled even flat. The assistant will open and close the hydrant valve only after the instructions from the branch man.

Penalties

Seconds

A. General

01.	Falling of helmet or any other uniform article during the drill	02 per article
02.	Failing to replace helmet or any other uniform article, before reaching the finishing line/before final whistle.	02 per article
03.	Rough/improper handling of equipment	2
04.	Dropping off equipment (branch, coupling etc.)	5 for each error
05	Missing the gears on the ground	5 for each error

(B) Hydrant Side

01.	Starting before first whistle	5
02.	Leaving hydrant unattended after water is turned on	5

(C) Fire Side

01.	Putting down or leaving branch unattended	2
02.	Rolling the hose improperly (i.e. with coiled protruding out)	5
03.	Failing to hit target	Disqualified
10.		
04.	Failing to remain in the box provided while hitting the target	5

* * * * *

EVENT NO.7 : FOUR MEN TWO PART HYDRANT DRILL WITH TEAM LEADER

This is team event consist of four members from each team. The team clocking the minimum timing will be declared winner of the event and next two best performances will be declared at Second and Third position.

Uniform & Equipment

1. Lengths of hose (3 X 50 ft.)
2. Dividing breaching (Gun metal)
3. Branches with 5/8" nozzle
4. Knee length gum boots, helmet with chin strap & web belt (canvas or leather)

Knee length Gum boots or Safety Shoes, Helmet with chin strop and Boiler Suits or Company's Safety Uniform and web belt (Canvas or Leather)

DRILL :

Equipment to be placed behind equipment line either side of the hydrant box. Men to stand at case 25 ft. on the start line, facing hydrant. The official starter will blow whistle to commence drill, followed by the team leader giving subsequent orders by whistle as indicated below and he is not permitted to give any other assistance to his team.

Part I

From the hydrant run 3 X 50 ft. length of hose, connect branch, water on and strike the target, whistle, water can be turned on at any time after the starter's whistle.

Part II

Disconnect branch, roll up last 2 X 50 ft. lengths of hose connect divider to 1X 50 ft. length of hose (one from the hydrant) reconnect and run out (2 X 50 ft.) lengths from the divider, connect branches (2), water on strike targets (2), whistle.

Part III

roll up all 3 hoses and keep on the hydrant lines at which point the official starter will blow final whistle. The drill ends when all equipments (3 hoses, dividing breaching and branches) are kept on the hydrant line.

NOTES :

A person must manage hydrant post and connected branch after water has been turned on.

Hoses must be completely rolled for immediate reuse after Part I and at the end of the drill. Hoses must not be partially rolled, then connected, flaked or dragged into position.

Hoses could be rolled using lugs. First man can hit both the target but the second person should open the hose, connect the branch and then disconnect it.

There will be three judges and one referee to blow the whistle.

Referee will blow the whistle (starting and finishing), record the total timing of the event and will act as supreme referee.

Referee's decision will be final.

There will be three sides of

- (a) Hydrant side
- (b) Fire side (left)
- (c) Fire side (right)

NOTE : Organiser of the drill events will not be responsible for any injury to participant or damage to the equipment whatsoever.

Penalties

Seconds

A. General

- | | | |
|-----|--|---------------------|
| 01. | Falling of helmet or any other uniform article during the drill | 02 per article |
| 02. | Failing to replace helmet or any other uniform article, before reaching the finishing line/before final whistle. | 02 per article |
| 03. | Rough/improper handling of equipment | 2 |
| 04. | Dropping off equipment (branch, coupling etc.) | 5
for each error |
| 06 | Missing the gears on the ground | 5
for each error |
| 07. | Filing to hit target (1st Part) | Disqualified |

(B) Hydrant Side

- | | | |
|-----|---|---|
| 01. | Starting before first whistle | 5 |
| 02. | Leaving hydrant unattended after water is turned on | 5 |
| 03. | Starting to unroll hose before reaching the marked line before it is accepted by the colleague or coupled | 5 |

(C) **Fire Side**

- | | | |
|-----|--|-----------------|
| 01. | Not placing breaching with lugs uppermost | 2 |
| 02. | Hose crossing either side of the breaching | 2 |
| 03. | Team leader, giving signal/whistle for next part before previous part is completed | 5 |
| 04. | Branch man knocking down second target before his own target is knocked | Disqualified |
| 05. | Team leader assisting in any event other than signal | Disqualified |
| 06. | Rolling the hose improperly (i.e. with coils protruding out) | 5 for each part |
| 07. | Second person failing to open entire length of hose and then connecting the branch and disconnecting in case first person hits both the target | 5 |
| 07. | Filing to hit target | Disqualified |

ANNEXURE - I

01. Awards, Trophies, Shields and Certificates

The winners of the events at the first, second and third positions will be awarded with certificates, Trophies and Shields as per the norms and rules of the Competitions.

02. **Best In-charge in Industrial Drill Competition:** The Officer clocking best timing in the event 2 & 6 will be declared winner of this award.

03. **Best Male Performer in Industrial Drill Competition:** This is an individual award. The Worker staff participating in the event 1,5, & 7 and having individual best performances will be judged by the Judges in all aspects such as uniform, efficiency and drill performances and will be declared winner of this prize.

04. **Best Female Performer in Industrial Drill Competition:** The Woman Worker staff clocking best timing and having best performance in all aspects such as efficiency, equipment handling will be declared winner of this award. The events 3 & 4 are considered for the prize.

ROTATING TROPHIES AWARDED FOR OVER ALL BEST PERFORMANCE IN INDUSTRIAL DRILL COMPETITION

GRADING / MARKING SYSTEM

01. For all the events, following marking will be given to adjudge "Best in-charge, Best Male Performer, Best Female Performer & Overall Best Performance of the Team" in Industrial Drill Competition.

Winner	50 Mks
Runner Up	45 Mks
2 nd Runner Up	40 Mks
4 th	35 Mks
5 th	30 Mks
6 th	25 Mks
7 th	20 Mks
8 th	15 Mks
9 th	10 Mks
10 th	05 Mks
All other Participants	02 Mks
Absent Participant	00 Mks

02. The Individual scoring total highest marks of event No. 02 & 06 shall be declared "**Best In-charge in Industrial Drill Competition**".

03. The Individual scoring total of highest marks of event No. 01, 05 & 07 shall be declared "**Best Male Performer in Industrial Drill Competition**".

04. The Individual scoring total highest marks of event No. 03 & 04 shall be declared "**Best Female Performer in Industrial Drill Competition**".

05. The Team scoring total highest marks in Events No. 1, 2, 5, 6 & 7 shall be taken into consideration for next 3 Yrs (2018 to 2020). (the three year gap is hereby given keeping in mind that many companies female representative does not participate in Event No. 03 & 04 but then these needs to be encouraged) shall be declared "**Overall Best Performance of the Team in Industrial Drill Competition**".

DIRECTOR, MAHARASHTRA FIRE SERVICES
General Instructions

01. Team having an in-charge official nominated by the team, who may be a member of it and will be responsible for the team. He will be the only person permitted to raise objections and may protest of behalf of the same.
02. Any objection or protest must be made to the recover immediately following the competition of the drill.
03. Penalties will be imposed form any infringement shown on the list of penalties.
04. In the event of a burst length or a mechanical fault developing on the pump, which in the opinion of the judges is not due to neglect or mistake on the part of the competitions, re-run will be allowed.
- 05, Dress will be protective helmet, knee length rubber boots (Gum Boot) or safety shoe (sports shoes permitted for ladies/female participant), boiler suits or Company's Safety Uniform and web belt / leather belt.
06. Hydrant will be stand post type with wheel type screw-down valves. Butterfly type lug will be used.
07. Pressure release couplings on hose will not be allowed. Brach pipes will be short standard pattern with the 5/8" nozzle.
08. The pre burn timing will be as decided for each event.
09. For all the hydrant drill events and hydrant pressure shall not exceed 5 bars.
10. Judges decision will be treated as final.
11. Revision or change in any instructions mentioned herein above remains in the authority of Organizer with pre-intimation to the participants.
